The *Just click* bicycle rack

# going on an adventure

With space for up to four bikes, the 'just click' bicycle rack brings every adventure within reach. Click it on and explore the world together.

## **Easy**

The 'just click' bicycle rack says it all. Just click it on and you're good to go. Securing bikes on a bicycle rack was never this easy.

## **Future driven**

The 'just click' bicycle rack is also suitable for electric bikes. Also, each model can be expanded with 1 additional bike. It's completely future proof!

## **Sure & secure**

Not only is the 'just click' bicycle rack very strong, the Cykell is also very safe. The system has undergone rigorous tests. You can of course secure the bicycle rack, as you can all individual bikes.

**reddot** award 2014  
winner

**The Cykell bicycle rack belongs to a new generation of bicycle racks thanks to its unique, patented locking system.**

---

# moving boundaries

Thanks to the unique locking system, the Cykell moves boundaries in terms of bicycle rack. Quick and easy, because the world is waiting for you.

The 'just click' bicycle rack says it all.  
Just click it on and you're good to go.  
Securing bikes on a bicycle rack was never this easy.

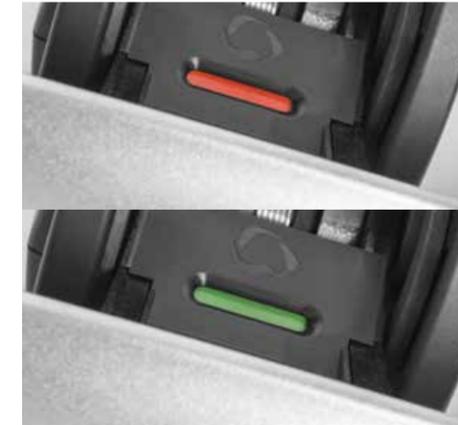

### positioning

All you need is a tow bar and a bit of manpower to install the 'just click' bicycle rack.

### locking

In order to lock the rack, all you have to do is push the lower frame into a horizontal position. That's all it takes.

### good to go

Did you connect it correctly?  
Then you're good to go.

### accessible trunk

Thanks to the convenient tilting system, the trunk is always accessible.

# Future driven

The 'just click' bicycle rack is also suitable for electric bikes.  
Also, each model can be expanded with 1 additional bike.  
It's completely future proof!

## extendable wheel trays

Thanks to the extendable wheel trays, the 'just click' bicycle rack can be used for bikes of any size.

## convenient drive-up ramp for electric bikes

Electric bikes too pose no problem for the 'just click' bicycle rack. Thanks to the optional, convenient drive-up ramp, you don't have to lift the bike, thus relieving your back. The drive-up ramp is very easy to fit on the rack, so you can take it with you at all times. Ideal for those who want to enjoy a relaxed day on their bikes.

## optional extension for extra bike

Got a new cycling partner? No problem, the 'just click' bicycle rack is easy to expand with an optional extension. The additional bike can be firmly secured to the previous one by means of the corresponding grip. Click it on and the extra bike is good to come along.

## T2'

The T2' is suitable for 2 (electric) bikes. Every 'just click' bicycle rack can be expanded with the extension for extra bike. This enables you to carry up to 3 bikes on the T2'.

## T3'

The T3' can carry 3 normal bikes. Found another cycling partner? You can carry up to 4 bikes on the T3'.

## **Sure & secure**

Not only is the 'just click' bicycle rack very strong, the Cykell is also very safe. The system has undergone rigorous tests. You can also secure the bicycle rack, as you can all individual bikes.

### **hear 'the click' and you're good to go**

Did you install the bicycle rack correctly? You will hear a click which means you're good to go. You can rest assured, thanks to this unique system, your 'just click' rack is secure.

### **securing the bike**

Thanks to the convenient securing strap system, it's easy to secure your bike to the wheel tray. You can transport both children's bikes and mountain bikes with 29" wheels. Every bike will be safe and secure.

### **grip system**

The removable grip arms make it easier to secure your bike. They keep it firmly in position, while their soft centre will protect the bike's frame. Also, every grip arm can be locked individually. This means your bike is better protected against theft.

### **One-key-system**

Apart from the grip arms, you can lock the entire carrier, all with the same key. This offers security at any time you need it. And to be on the safe side, we will give you a set of spare keys.

we make  
it easy

And the Cykell 'just click' bicycle rack is proof of that.  
This simple system leaves you with more time to enjoy life.

# step-by-step plan

## positioning

## removing

### place the rack on the tow bar

Lift the 'just click' bicycle rack and lower it on to the tow bar diagonally. Now move it vertically and push on the wheel tray in order to tilt the lower frame downwards and secure the rack. Did you connect it correctly? Then you're good to go.

### plug & socket

Use the foot pedal to tilt the rack. This gives you easy access to the socket if you want to connect the rack.

### extendable wheel tray

Now pull out the wheel trays and light bars.

### convenient drive-up ramp

Remove the drive-up ramp and firmly secure it in extension of the wheel tray. Once secured, you can ride your bike onto the rack.

### gripping grip arms

We recommend placing the bikes on the rack with a bit of a tilt and securing them with the grip arms. Turn the knobs and press them in order to move or remove the arms.

### securing the wheels

Don't forget to strap the wheels. This way, your bike will be safe and secure on the 'just click' rack while you're driving.

### lock everything

Have you installed everything? Then lock the rack and the grips.

### take the rack off the tow bar

If you wish to store the rack, tilt the lower frame upwards. Lift the rack and take it vertically off the tow bar.

### convenient wheels

Thanks to the wheels at the bottom of the rack, you can move it to the appropriate storage place without having to burden your back.

### hang up the rack on its hook

The optional storage hook and cover will save you space and enable you to store the bicycle rack safely and free from dust.

# the world at your feet

The adventure awaits you.  
Click on and look for the horizon.
