- ✓ suitable for everyday use
- ✓ BPA free food grade materials
- ✓ compact and lightweight
- ✓ dishwasher safe (remove filter)
- ✓ ergonomically designed
- ✓ anti-spill drinking top
- ✓ protective cap

**the water source should be municipal water. please do not use groundwater for filtration to avoid reducing filtration effectiveness and shorten filter service life. tank water may require a sediment pre filter unit attached to tank. please contact us for more information.**

## contents:

bottle x 1

filter x 1

cap x 1

## product technical specifications

<b>flow rate</b>	50ml/squeeze
<b>filter capacity</b>	300L
<b>water source</b>	municipal water
<b>filter life</b>	2 months*

## directions for use

1

before first use, unscrew lid and fill with water.

2

squeeze to empty all water. this activates the filter. repeat steps 1 & 2 twice.

## directions for filter replacement

1

unscrew, remove and discard used filter cartridge.

2

screw new cartridge firmly in place.

3

fill with water, squeeze to empty all water. this activates the filter. repeat process twice.

## important notes

- bottle can only filter COLD tap water. do not pour in hot/warm water for filtration.
- if the filtered water develops an odour, please replace the filter immediately.
- clean the bottle at least once a week using a mild detergent. the bottle is dishwasher safe - top shelf upside down only. remove filter before cleaning.
- keep bottle away from heating elements eg. oven & coffee machine. do not use in microwave. store bottle in a cool dry place.
- to ensure drinking water safety, the filtered water should be consumed within 2 days.
- please store spare filters in a cool and dry place.
- please recycle bottle at end of service life. filter cartridges are not recyclable.
- \* in order to maintain optimum filtration, it is recommended to replace filter after use of 300 litres or 2 months. because water quality and volume of consumption varies, filter service life changes.
